EzVCD

* A QUICK AND EASY WAY TO MAKE VCD!

Create Video Presentations & Home Videos

Drag & drop TV quality MPEG digital video directly to your PowerPoint slides and Presenter™ Studio. Easily combine your favorite scenes into a fun new video. Even record to video tape or CD!

Generate Photo slideshow CD

Create photo slideshow CDs with your burner and watch it on TV.

Instant Video Websites & E-mails

Create a web page featuring your favorite snap-shots and video. Click the E-mail button to automatically attach your snapshots and/or video to your E-mail message.

Create Video-CD

Playback on home VCD, SVCD and DVD players. Convert Video-Tape to Video-CD for life-time storage.

MPEG DIGITAL is the Universal Standard for Digital Video and Audio on Your Computer - enabling you to edit, store, and distribute CD-quality Audio / Video material, with compression as high as 200:1!

EzVCD enables you to easily encode your own MPEG DIGITAL creations. You can digitally edit your video cassettes, and put TV quality digital video on your web site, in an E-mail, on a CD, or even in your PowerPoint presentation.

EzCoder Interface

Perfect for Home!

- * Edit hours of home video tapes into fun and entertaining videos
- * Record edited videos back to video tape or CD
- * Send latest videos & snapshots via E-mail
- * Show off your favorite videos & snapshots on personal web site
- * Create a "What We Did Last Year" holiday video CD
- * Create VCD 2.0, playable on PC, iMac, VCD & DVD players

Four Easy Steps to make your VCD:

- * Capture
- * Edit
- * Author
- * Make Movie

WinDVD Creator walks you through capturing video, editing it, adding titles, transitions, effects, music, menus and finally burning the finished product as a VCD - all with a single program. Making VCDs has never been so easy or so fast.

WinDVD Creator also includes features like scene detection, Auto-Stop Recording and Split File Size Recording

VCD/DVD PictureShow

VCD / DVD PictureShow lets you use your CD or DVD burner to create exciting photo slideshows that play on standard VCD / DVD players, so you can watch your digital photo on TV!
